If you're looking for a way to get ahead financially, read this message.

The problem is, many of us want to be wealthy, but don't realize there is some investment in money knowledge, psychology, and management required first. **A strong platform of financial strength and know-how needs to exist**, from which to take the next leap up to the creation and keeping of wealth.

I (Glenda Nicholls) wanted to be unlimited by money from 8 years old and being tired of hearing the words "we can't afford..." I earned, saved, and invested my money right from 12 years old towards this goal. I developed my own money management systems, and later got lots of training and education which I applied, and I achieved my goal.

I have noticed there are a LOT of other wannabe better off people out there just like I was, but they don't know how to get started.

Guess where I see most of them these days?

At wealth creation seminars, where there are specific strategies being taught.

I see people rushing to sign up for programs, when they haven't even had the basic financial intelligence to ask about what the risks of the strategy might be, and when they haven't even got the money easily available to sign up! If I had a dollar for every time I've heard someone say to the provider "I would love to do this program but I can't afford it – is there any way you can let me in?"

And I've been in programs where these people somehow managed to scrape up enough to get in, and I'll bet you can guess what happened next. They had no extra reserves of cash, or financial savvy-ness at ALL, and let things crash and burn around them because of this – getting absolutely nowhere at all, and in fact going backwards!

This program is for you if....

- you still have several decades of working life ahead of you, and you don't want to work so hard that whole time
- know that you **want to create wealth**, and have a great income, so should be able to do it but are way too time poor and pressured with work, to get going....to even explore the options.
- You want to be better off, but **just don't know how to get started**.
- you need to get on top of your money issues, and you just don't know how to climb out of the abyss
- you have spent thousands and thousands of dollars on courses and programs, and have NOTHING to show for it but an empty bank account, and a strong sense of anger and resentment at what was promised and never delivered
- you have tried working harder, maybe taking on an extra job or two, and still feel just as poor, very frustrated and extremely tired
- you have read lots of books about money, and wealth creation, but you still don't have enough money in your life

So.....

We have created a way for you to create this **strong foundational platform**, the missing link you need, that will enable you to first be financially strong, then give you the power to pursue your dreams of financial independence.

Got Questions ???

“Ok Glenda. . . . All of this sounds like it's going to cost me a small fortune! What am I up for?”

This is the best bit. Because we really want to help you get on the road to REAL financial power, we have made this program just

\$997

Yep – even though it's a solid amount of training, (with 12 lessons, in 5 sections each, with multiple components) that would take 4 workshop days and cost about \$4000 at a live program, you can get it for just a low **\$997**.

“Ok . . . is there a payment plan?”

Yes!! When you choose this plan, you receive 1 lesson each month, in alignment with your monthly payments.

“But hang on – weren’t there some extra bonuses as well?”

That’s right too!

You get your **first month’s lesson FREE!** (when you use the payment plan option)

So you can **Try before you Buy!!**

And you can use the Call in Days to get extra value from the program, as well as an amazing opportunity to earn money with the **SURPRISE BONUS** you’ll find out about when you sign up.

“Are you sure this program has stuff I haven’t come across before?”

Well we don’t know what you know! What we do know is this: this program has been created from scratch from a pool of knowledge and experience gained over 25 years by the author, and is **aimed to quickly skill you up** with all the most relevant and useful concepts and information, from the vast pool out there.

Also – **you are stepped through in nice small chunks**; what you need to know, and what you must implement, in a sensible order. And this is over a period of time, so you don’t get overwhelmed with information, and therefore do nothing.

This is a **completely UNIQUE** training program. There is nothing like it out there. You will get to understand and then put legs on stuff (apply it to yourself) straight away. **You WILL have a different financial scenario after you follow the program and apply everything in order.**

“What if I decide it’s not for me?”

You can unsubscribe from the monthly delivery at any time.

If you purchase the full course, we offer a 7 day money back guarantee.

If you feel that you are not better off for the information and the practical steps you have taken because of the program, within 7 days of purchase simply ask for your money back, with a written description of your reasons. We will then refund your full one-time payment.

“What have others experienced?”

“The Financial Power Platform has been such a valuable tool in helping me create a financial plan to support both my business and life goals. Before creating my money map using Glenda’s system, I found my finances lacked the structure and clarity they needed to allow for the growth and expansion I wanted in my business. I had been looking for a long time to find a system to manage my finances that was easy to understand, really made sense to me and met all of my business and life requirements – finally I’ve found it!

By following the program, I now have a brilliant system in place that I’m so happy with. I know it will allow my finances to expand in alignment with my goals and vision and I feel so much clearer in moving forward.”

Samantha Lyttle

I am part of the "now generation" and had not mastered the skill of delayed gratification, and at one point in my life had five credit cards! I did not know where to start getting myself out of the deep financial pit of debt I had gotten myself into.

I looked to books and seminars for the answers. They spoke about the facts, how to invest, why you do not want to pay interest etc. All great information but what I needed was the step before that.

I needed to go back to basics and review my thoughts and relationship with money. It was my mental conditioning around money that needed examining. The Financial Power Platform program provided that for me.

The program was easy to follow, I watched the presentations wherever I was, through my iPad, iPhone or computer. It gave me a lot to think about and I have learnt a lot, but more than that, it gave me hope that I can eventually become financially free.
